Lavit Machine

- 💧💧💧 The Lavit machine is a great sustainable solution for offices that are spending too much money on plastic bottles and soda cans.
- 💧💧💧 Lavit is an on the counter machine that only needs an electrical outlet and access to a water line to get started. It is truly a **Plug & Play** machine.
- 💧💧💧 Once installed, Lavit dispenses filtered still and sparkling water at the touch of a button.
- 💧💧💧 You can make our healthy Eco-Capsules for flavorful bliss!

Eco-Capsules

💧💧💧 The best part of Lavit's platform are our Eco-Capsules.

💧💧💧 100% Aluminum

💧💧💧 100% Recyclable

💧💧💧 There is no special send back program - just remove the Eco-capsule and toss in your designated recycling bin.

Choice

- 💧💧💧 Lavit is a VERY customizable platform.
- 💧💧💧 Lavit boasts a variety of 20 different flavors including: iced teas, iced coffees, sports & energy drinks, lightly sweetened and unsweetened: Lavit has it all
- 💧💧💧 All Eco-capsules are extremely, supremely and completely WATER based.
- 💧💧💧 Once the eco-capsule is in our basket, users can choose to have ANY flavor, still or sparkling.
- 💧💧💧 **Fun Fact:**
Lavit is the only place you can have a Sparkling Arizona Arnold Palmer.

Choice

Health

The Lavit machine is a healthy alternative to sugary drinks including sodas, juices, energy drinks and vitamin-enhanced drinks.

Aside from our Coconut water which has 45 calories per serving, all of Lavit's beverages are 0-10 calories per serving with little to no sugar.

All our beverages are WATER based.

Each 12 ounce pour is 12 ounces of WATER.

Every Lavit machine comes installed with their own filter, which means it's the purest, most filtered and healthy WATER you can find on the market.

Hydration

US consumers are drinking more water now than they were 30 years ago.

However, average Americans **only drink 1.8 cups a day**, significantly less than the recommended **8.5 cups a day**.

An estimated 75% of people suffer from chronic mild dehydration, leading to key **ongoing health, mood, energy and workplace performance issues**.

95% OF EMPLOYERS see a correlation between health and employee performance and that they have a role to play in **positively influencing good employee health**.

Mild dehydration can cause one to be as prone to errors while driving as drinking low levels of alcohol.

In fact you're 114% more likely to make an error if you're dehydrated.

Coffee consumption without providing balanced hydration alternatives **increases workplace dehydration**

💧💧💧 The Lavit machine is easy to use given the amount of choice you have.

💧💧💧 If you want just water, press a button.

💧💧💧 If you want a flavored beverage, put the EcoCap in the machine, choose still or sparkling and the machine does the rest of the work.

Easy to Use

Quality

- 💧💧💧 Lavit's Crack and Peel technology is patented and ensures that there won't be any Cross Contamination.
- 💧💧💧 If you want sparkling water after the person before you has made an iced tea, your water will taste of water and only water. Brands love knowing that their products will always taste like their products on Lavit's platform.
- 💧💧💧 Other machines make drinks from liquid concentrate tubes or "bag-in-box."
- 💧💧💧 In order to recycle those plastic wastelands you need to sever the cap, clean out the bag in its entirety and then bring to a recycling facility.
- 💧💧💧 Lavit is different - each drink is brewed from our Eco-caps that are completely sealed. The only way they open is when our machine crack and peels the lid. Water then shoots into the capsule and mixes your drink in mid air tilting upward and pouring into your glass.

Safety

- 💧💧💧 While most similar machines use UV light to combat viruses and germs, Lavit uses a unique Ozonation process.
- 💧💧💧 You know that clean, fresh, smell in the air after a thunderstorm? Feels calming and clean, well that's Ozone.
- 💧💧💧 Ozone is produced by electrically charging the air (like a lightning bolt during a thunder shower) and the oxygen O_2 molecules in the air become separated and reform temporarily as O_3 or activated oxygen.
- 💧💧💧 Our custom made Ozonator safely “zaps” all known bacteria from the machine every morning at 3am before your employees get there.
- 💧💧💧 Since the water is separately coming from the water line and being filtered there will never be a collection of bacteria. Our Ozonator simply ensures that no bacteria grows within the unit.
- 💧💧💧 Our Ozonator is better than reverse Osmosis, UV and water softening. It is proven to be the MOST effective solution for killing viruses and germs.

Sustainability

- 💧💧💧 Lavit's Eco-capsules result in 81% lower carbon emissions compared to cans as they are 99% lighter and require 85% less packaging.
- 💧💧💧 Our Lavit machine uses minimal counter space and designed to plug directly into your waterline. This reduces the trucking of heavy, 5 gallon water jugs.
- 💧💧💧 Our Eco-Capsule sleeves are SBS paper board. They are fully recyclable and are FSC certified with ensures that products come from responsibly managed forests that provide environmental, social and economic benefits.
- 💧💧💧 Lavit Bamboo cups are 100% biodegradable bamboo, made for hot & cold beverages. The inside is PLA coated, leading to faster biodegradability.

Lavit Machine Specs

LAVIT SINGLE SERVE STILL & SPARKLING WATER COOLER

Voltage	115v
Frequency	60Hz
Total Power Consumption	2 A/230 W
Certification	UL Approved
Beverages	No Cross Contamination between Beverages
CO2 Capacity	Approximately 400-500 drinks
Sanitation	Anti-microbial surfaces & water ways
User interface	Touch Screen
Warranty	Two year warranty

COLD WATER SYSTEM

Capacity	5 liter cold tank, 1 liter carbonation tank
Water Source	Direct Plumbing or Pump Kit for 5 gallon
Sanitation	Daily Ozone Disinfection
Avg. Cold Water Temp at Nozzle @75°F	42-48°F
Cold Water ARI Rating	27 50z <50°F +/-10%
Beverage Dispense Time	12-15 seconds
Carbon Filter Options	NSF 42 and 53

WEIGHT AND MEASUREMENT

Net Weight	44lbs
Gross Weight	48lbs
Machine Dimensions	15.16" w x 19.33" d x 17.52" h
Machine Dimensions (height when lid is open)	24.25" h
Dispenser to Drip Tray Height	8"
Boxed Dimensions	17.91" w x 22.24" d x 20.47" h

CO2 Tanks

Lavit CO2 Specs

Weight 680g

Capacity 24oz

Number of 12 oz.
Drinks 400

Unit # 1013

Best locations for Lavit

Lavit is best for the following locations:

- Business Offices
- Gyms
- Apartment Complexes
- Golf Courses
- Car Dealerships
- Hospitals
- Doctors Offices
- Hotels
- Universities
