

Crescendo®

Bean-to-Cup

BUNN®

Authentic Single-cup Espresso and Premium Café Beverages

bunn.com/crescendo

Large hopper merchandises fresh coffee beans

Consumers can clearly see fresh whole beans in the large 2.2lb (1kg) hopper

Touchpad features easy, step-by-step selections

Touchpad has two programmable portion sizes from 8 to 12oz (230 to 350ml) and 9 cafe style beverage choices, plus hot water

VirtualTOUCH™ Ready

With optional VirtualTOUCH technology, customers need only hover their finger over a button to make a selection

A PATH TO GREAT ESPRESSO

1 GRIND, TAMP, BREW

Beans descend from the large 2.2lb (1kg) hopper into an internal grinder.

High-quality precision burrs perform a clean-cut milling of the beans. A moment later, the coffee is tamped into a puck with precise dosage, and the brewing begins. Nine bar brew pressure used with a variable brew group creates rich, strong espresso.

2 MIXING

Engineered with three powder hoppers (two

3.3lb/1.5kg hoppers for larger demand flavors and a third 2.2lb/1kg hopper). Adjustable speed auger motors produce accurately portioned drink recipes.

3 TASTE

A highly efficient two-tank system (0.2gal/0.8L tank for espresso, and .75gal/2.84L tank for solubles) assures ideal serving temperatures for all espresso and café beverages.

crescendo® Features

- 9 bar brew pressure used with a variable brew group to produce an excellent single or double shot with beautiful crema
- Tamping sensor achieves consistently great coffee extraction
- Precision burrs for clean-cut milling of the beans and assurance of superior grounds distribution
- Ideal serving temperature of espresso and café beverages are achieved with our independently controlled two tank system. Engineered with three powder hoppers: two 3.3lb (1.5kg) hoppers for the larger demand flavors and a third 2.2lb (1kg) hopper that allows for additional flavors
- Adjustable speed auger motors produce great consistency of ingredient portioning
- With VirtuatTOUCH option, the operator selects and dispenses a beverage by hovering a fingertip in front of a selection button without touching the machine.
